Give the DJ the attention he deserves by placing an LED curtain behind him. This is a great way to make your party more high-tech! An LED curtain can be used to enhance any party with 600 bright and responsive LEDs following one of 14 different flashy and psychedelic programs. The curtain measures 2x3 meters, and the stands stretch between 8'-14' high and 7' - 12' wide.

UPGRADE #6: LASERS

Do you want your dance party to really shine? Why not add some lasers to your show! Our High-Tech laser show is unlike anything you've seen before and will leave your guests stunned and amazed. See it to believe it!

Note: For best effect, lasers look way better when we fill the room with non-toxic mist from our fog machines. It should be noted that some venues don't allow fog machines so please check with the building's venue coordinator. It still looks great without the fog either way.

UPGRADE #7: DANCE SHOWS

Add some extra excitement! Break the ice to really get your dance floor hopping. Our theatrical or dance teams will perform to start the evening and can even teach your crowd a move or two in just about any style. From swing to country line dance, hip hop to go-go this package will guarantee to get everyone pumped up for a great evening on the dance floor.

UPGRADE #8: BLACK LIGHTS

Add a special glow to your next event with a black light package. You don't need to spend a ton to make your event stand out.

You've probably seen black lights at amusement parks, museums or Halloween displays. These lights make any white clothes, teeth and various other items glow in the dark!

We also offer black light paints and make up like lip gloss, hair gel and nail polish. Call for a quote.

We recommend getting 4 lights for half a gym size, 8 lights for full gym

UPGRADE #9: BUBBLE MACHINE

Everyone loves bubbles! Bubble machines are a fun way to add more magic to your evening. The bubbles are blown into the air surrounding your guests on the dance floor. Great for kids dances, weddings, etc.
